Security Notification

Due to difficult economic conditions there has recently been a rise in home burglaries across the Bay Area. Unfortunately, this could affect our customers' properties while they are being fumigated. We do not provide onsite security and our insurance does not provide coverage against break in's or vandalism, if it were to occur. **It is important to understand that windows must be opened during fumigation.** Doors are locked and "secondary locked". We request you consider implementing the following security measures while you are away from your property.

"Crime Prevention Tips"

1. Hire on-site security.
2. Take valuables such as money, jewelry, credit cards, important documents, electronics etc., with you to secure locations
3. Notify your trusted neighbors that your home is going to be fumigated and to call the police if they notice any suspicious activity.
4. Contact your local law enforcement and request extra patrols of your property while you are away.

Note: Our Company does NOT provide on-site security.

As a safety precaution and per label requirements, the fumigator must have access to all parts of the structure including safes, closets, and storerooms which are normally kept locked.

Windows will be left open while the tent is on the building and during aeration.

Owner/occupant/agent may post a guard at the property at his/her own discretion and cost.

WE WILL NOT BE RESPONSIBLE FOR ANY LOSS OR DAMAGE DUE TO VANDALISM, THEFT, OR OTHER ACTS OF THIRD PARTIES.
